

## Is this thing working?

I'm working on my hyperposter for [eResearch Australasia 2008](#). This is a test to see if the mapping system here is still working.

This document has embedded semantics It was written in:

1. [Toowomba at USQ](#) (S 27.601335° E 151.930854°),
2. for a [conference in Melbourne](#) (S 37.849925° E 144.978368°)
