

Infrastructure and what do we really want for DMPs

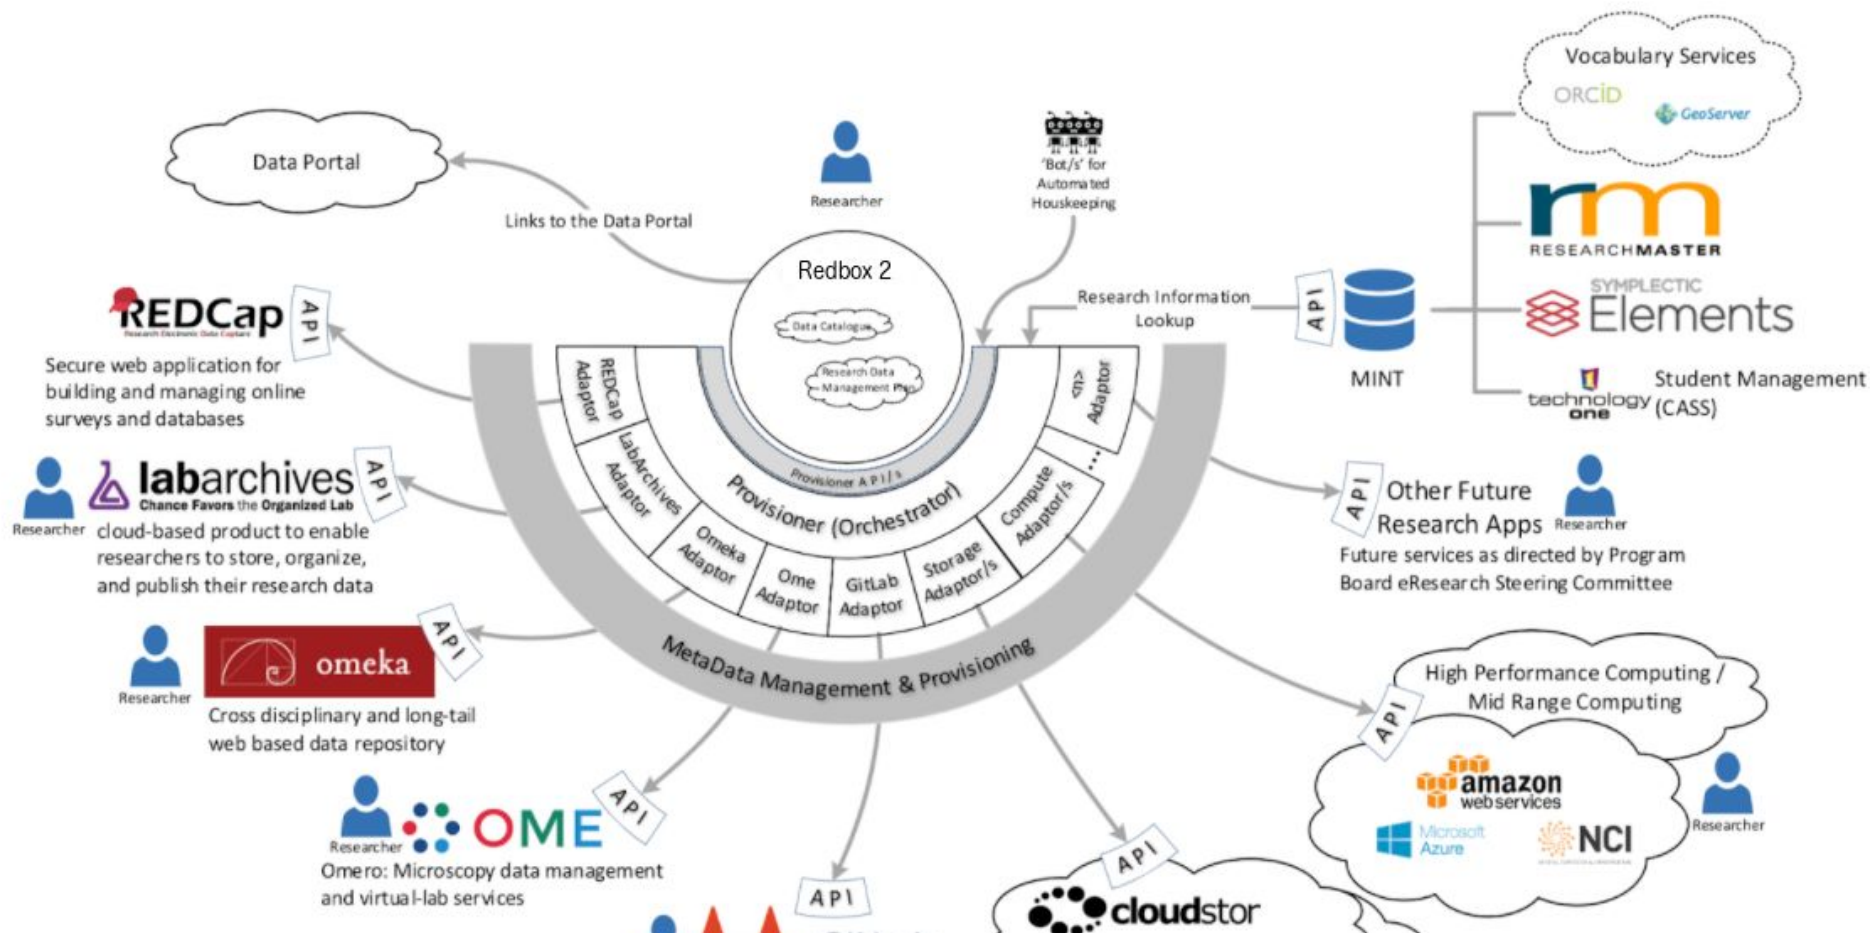

Dr Peter (pt) Sefton

@ptsefton / <http://ptsefton.com>

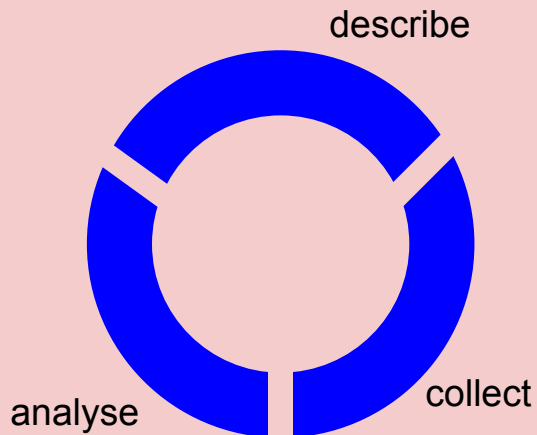

Workspaces:

- working storage
- domain specific tools
- domain specific services

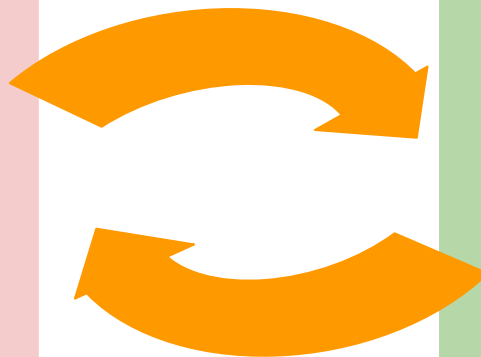

Research
Data
Management
Plan

Active cleanup processes
workspaces considered ephemeral

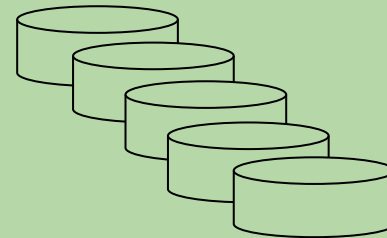

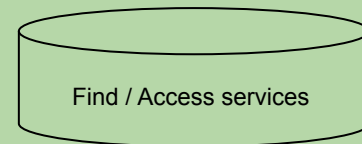

Reusable, Interoperable data objects

- deposit early
- deposit often

reuse data objects

Repositories: institutional, domain or both

Findable, Accessible, Reusable
data objects

Policy based data management

RO-Crate

Addressable
resources
